

Mary Lindgren, Environmental Project Manager

Mary is an environmental professional with over 16 years of experience in project management, environmental site planning and natural resource management. She is responsible for all phases of environmental project management and all business operations out of the company's Palm Beach County office. Managing numerous large scale developments, public sector projects and environmental restoration projects have contributed to her extensive experience and allowed her to work closely with key personnel in the industry. Mary's focus is managing environmental assessments, listed species surveys, submerged resource surveys, mitigation bank permitting and planning, wetland determinations and impact permitting. Mary has acquired a myriad of clientele and works closely with the U.S. Fish & Wildlife Service, the U.S Army Corps of Engineers, the Florida Fish & Wildlife Conservation Commission, the South Florida Water Management District and the Florida Department of Environmental Protection. Mary's diverse expertise ranges from environmental and business development to government operations. She previously served as president of the Florida Association of Environmental Professionals local chapter and enjoys volunteer work with several environmental education organizations.
